BACKGROUND OF THE INVENTION

[0004] The United States of America is a leading country in the world while Europe is a western industrial continent ; American space voyage and European airbus signify advanced technology, reputation of America & Europe is well appreciated by foreign countries all over the world so I create America & Europe reputation membership association for overseas manufacturers, enterprises, companies, representatives.. to admire reputation of the United States & Europe through that value to benefit their business activities.

[0005] FIG. 3 : The policy builds to authorize overseas membership companies to use annual America & Europe reputation membership emblems in their letterheads, catalogs.. augmenting their business reputation. The membership reputation policy is to license uniquely for overseas companies without handling business transaction to be considered as a policy invention that no other companies do such a way, its aim is to make overseas companies.. famous in their own business.

BRIEF SUMMARY OF THE INVENTION

[0006] Advantages of the invention are to promote business for overseas companies and to collect taxes by local government on activity of the association.

FIG. 5 : American & European reputation for overseas policy does increase reputation of membership companies in their own countries, minimum investment 1 earns top value of reputation 2 thus up raising their business activities.

[0007] The invention composes of membership association/company, its function, emblems, membership statements, using of America & Europe membership emblems for overseas companies, enterprises, manufacturers, representatives in their letterheads, catalogs.. office machineries; computers, printers, scanners, copiers, fax machines, telephones and requirements of business office..

BRIEF DESCRIPTION OF THE DRAWINGS

[0008] FIG. 1 ; U.S. & Europe reputation membership activity.

[0009] FIG. 2 ; Overseas companies..

[0010] FIG. 3 ; Assessment in two periods.

[0011] FIG. 4 ; Reputation of overseas companies.

[0012] FIG. 5 ; Minimum investment earns top reputation.

[0013] FIG. 6 ; Its value evaluates over a traditional advertisement.

DETAILED DESCRIPTION OF THE INVENTION

[0014] FIG. 2 : U.S. & Europe reputation membership association for overseas manufacturers, enterprises, companies, representatives.. owns its fundamental policy and structure. It is created to license uniquely reputation value of America & Europe to overseas companies in foreign countries without business transaction so as to increase their reputation FIG. 4. Its value 4 evaluates over a traditional advertisement 3 in FIG. 6.

[0015] FIG. 1 : This is a pure membership reputation policy licensing uniquely for foreign companies in exchange of reasonable annual fees to be paid by overseas companies.. to the service association maintaining their membership to obtain membership statements, using of annual America & Europe reputation emblems.. The creative association functions with overseas members in such a different nature that normal domestic membership associations do not have the identical activities.

[0016] Exchanging value of America & Europe reputation, U.S. & Europe reputation association will authorize in annual membership statements that overseas enterprises, manufacturers, companies, representatives.. use annual America & Europe reputation membership emblems adding to their letterheads, catalogs.. The association will furnish certain information address of local manufacturers and trading companies.. upon request.

[0017] There is no any business transaction associated between America & Europe reputation membership association and overseas membership companies.., the association takes no responsibility on any activities of membership companies in the policy. Its goal is to make overseas companies become famous through America & Europe reputation value.
